

Benjamin Rowan

Game Programmer — Software Engineer

MY PROFILE

- Recent graduate in computer science and current game developer, seeking an entry level position in software engineering and development. Experience working in teams and individually to create applications utilizing diverse algorithm designs. Committed to listening carefully to critiques and requests, and incorporating feedback to boost project outcome.

PROFESSIONAL EXPERIENCE

Software Dev Intern

August 2025 - Current

Nagios Enterprises, St.Paul MN

- Tasked with developing mainline features for open source project Nagvis
- Worked with a team of individuals to develop and maintain enterprise level IT Solutions
- Full stack development practices with web apps / system monitoring

Game Developer

May 2024 - May 2025

University of Wisconsin - Stout Instructional Design, Menomonie, WI

- Responsible for the ideation and creation of game projects upon request of professors from The University of Wisconsin - Stout
- Worked with a team to create experiences that enhance student's engagement and learning experiences
- Participated in two professor-requested projects and contributed to their continued development

PROJECTS

Dread Not — Two Player Co-Op Survival Puzzle Game

September 2024-Present

Technical Director, UW - Stout Game Design Program

- Responsible for the creation and designation of tasks
- Designed and implemented several networked game features
- Utilized engine features to maximize efficiency and optimization
- Responsible for QA testing configuration and bug reporting/fixing
- Created and designed team programming standards to maximize efficiency

Atom's Embrace — Narrative Walking Simulator

January 2024 - February 2025

Game Director, UW - Stout Game Design Program

- Responsible for managing a team of developers to maintain project goals
- Designed and implemented algorithms that enhance user experience
- Experimented with accessibility features to broaden user experience
- Designed and implemented systems to power an audio log dialogue system
- Lead and facilitated creative decisions with a team of developers

RELEVANT COURSEWORK

- **Mathematics:** Three Dimensional Calculus, Linear Algebra
- **Computer Science:** Computer Graphics, Shader Programming, Video Game Design & Development I-IV
- **Software Engineering:** Operating Systems, Algorithm Design, Computer Architecture, Web Design and Development

EDUCATION

- **2021-2025**
B.S Computer Science - 3.601
Minor in Mathematics
University Of Wisconsin - Stout

PRO SKILLS

- Low Level Programming
- Agile Development
- Quality Assurance
- Team Management Experience
- Games Programming
- Shader Programming
- Computer Graphics Programming
- Full Stack Development

LANGUAGES

- **C++ — C#**
- **HTML — CSS**
- **Python**
- **JavaScript**
- **GScript**
- **GLSL — HLSL**
- **Java**
- **Rust**
